

HUỖNH THANH HẢ TRIỀU

WEB DEVELOPER

Hi, I'm Trieu. I'm an eager college student who has a strong love for the field of computer technology. I first became interested in programming throughout my academic career when I dedicated myself to studying the nuances of web development. I developed my programming skills via coursework and side projects, concentrating on web development frameworks and technologies. I am seeking an opportunity where I can contribute my expertise, learn from industry experts, and further refine my abilities. I am excited to contribute my dedication, passion, and technical skills to a team that delivers cutting-edge web solutions.
